An exciting workshop showing the novice the gift of this magical alphabet. We will be using the **Futhark set**, which is 25 staves (24 symbol staves and one blank staff).

One of the most enchanting things about runes, is how easily you can learn to read them for yourself as well as others.

This workshop is based on my book of runes written many years ago. Each participant will receive a copy of my book and some great insight.

You will need to invest in a set of Futhark Runes.

The Futhark set will have 25 staves in total. You may find that wood, or stone works a bit easier. Clay runes do tend to chip.

Wise to also bring a cloth to read upon.

Held at the First Spiritualist Church of Galt, 2000 Speedsville Road, Cambridge, ON

This workshop is intended for general interest purposes and does not necessarily represent the tenets of Spiritualism.
